

Once the pony was added to the Weeks stable, Carlton, who is owner of C & C Auto Restoration, began a year-long restoration project. However, the process was made easier due to the fact that all the GT/CS specialty parts were still on the vehicle. The refurbished pony's first outing was at the 1994 30th Mustang Anniversary Celebration held at Charlotte Motor Speedway. The Weeks counted a total of nine California Specials at that event, but found only six on hand for this year's 35th Mustang Anniversary Celebration.

The car is listed in Paul M. Newitt's 1996 GT/CS Registry along with some 700 others. This number only indicates the number that are registered, not the number that have survived through the years.

Carol and Carlton enjoy displaying their captivatingly special "horse of a different color" and enjoy sharing its history with others. Carol extends an open

invitation to all Mustang enthusiasts — "Please stop by sometime if you see us at a show; we love to talk about Mustangs!"
